CAREER OBJECTIVE

Second-year ECE student with strong interest in embedded systems, IoT, web-development. Strong inclination toward building real-time systems, chip-level design concepts, and interactive web solutions.

Equipped with foundational knowledge in electronics along with practical exposure to hardware–software integration.

Enthusiastic about transforming theoretical concepts into functional prototypes through projects and hackathons.

Interested in developing scalable, efficient, and future-ready technological solutions across multiple domains.

Adaptable learner with a collaborative mindset, aiming to contribute effectively in dynamic, innovation-driven environments.

SKILLS

Embedded Systems: Basic understanding of embedded system concepts and programming fundamentals

Programming: Beginner-level knowledge of C and Python, with focus on logic building

Electronics: Fundamental understanding of analog and digital circuits; basic circuit design

Tools: Familiar with MATLAB, Arduino IDE

Core Skills: Problem-solving, adaptability, effective communication, and teamwork

LEARNED OBJECTIVE FROM PROJECT

(Smart Agriculture for Efficient Cultivation in Hilly Regions)

Understood how environmental factors like temperature and soil moisture affect crop growth, especially in hilly terrains

Gained basic hands-on experience with sensors such as temperature and soil moisture sensors for real-time monitoring

Learned the fundamentals of working with microcontrollers like Arduino and ESP32 in simple agricultural applications

Strengthened problem-solving skills while working on system setup and sensor integration

Learned the importance of teamwork and coordination during project development and workshops

Connected theoretical electronics concepts with practical applications in agriculture

EDUCATION

B.E – Electronics and Communication Engineering – current CGPA is 8.37
(2024-2028)

Sona College of Engineering, Salem

HSC – Percentage of 82 (2024)

SRK Matriculation Higher Secondary School, Salem

SSC – Percentage of 76 (2022)

SRK Matriculation Higher Secondary School, Salem
